

May 29, 2011

**Dear Practitioner**

Nutrsearch is delighted to announce Dr. James Wilson's return to NZ for 2011, and invites you to attend Dr. Wilson's **Advanced Clinical Workshop**. Come and be involved with one of the world's most renowned natural medicine experts at the Westin Hotel, Auckland's premier conference venue.

The feedback we received last year was: "great seminar, great venue, great clinical tools" and we are certain that Dr. Wilson's 2011 interactive workshop will again provide great value to our practitioners.

This year, Nutrsearch will give practitioners the opportunity to interact directly with Dr. Wilson. A large part of the 2011 Auckland Seminar will be allocated towards an open forum workshop.

*This will provide you with the ability to:*

- Bring your most difficult cases for open discussion.
- Hear about other practitioner's successes as well as failures.
- Learn new clinical tools to significantly improve your patients' outcomes.
- Understand how to integrate and apply these new tools successfully into your practice.
- Ask about Dr. Wilson's latest research and findings into stress & fatigue, immunity and more
- Take away from this workshop cutting edge information on treating stress related illness.

**Auckland**

**Saturday 13 August 2011 - The Westin Hotel, 21 Viaduct Harbour Avenue, Auckland**

Dr. Wilson will focus on a more interactive approach, giving you the opportunity to participate more fully.

To register, simply complete the enclosed Registration Form and return by mail, fax or email, and by doing so before the end of June you will receive our Early Bird Special price of \$69.00 (+GST) instead of the full-price of \$79.00 (+GST).

**Don't delay this year, book early to avoid disappointment - Auckland was fully booked early last year.**

Yours Sincerely,

Eric Bakker B.H.Sc (Comp.Med) ND R Hom.  
**Nutrsearch Clinical Services Director**

*"Thanks for the patient referrals, I must say that your Future Formulations products have been excellent and I have been having some great successes in the clinic with the program".*

**Dr. Steve Joe, Medical Doctor, Hamilton**

*"Professional seminar, Doctor Wilson is an extremely knowledgeable as well as a charismatic presenter. This seminar is bound to change the way many will practice".*

**Kevin Tinker ND. Hawke's Bay**

## Advanced Clinical Workshop - Dr James Wilson

Dr. James Wilson.  
PhD, ND, D.C

### Advanced Adrenal Fatigue Management - Balancing the Difficult Patient - (90 mins)

Every clinician will experience patients from time to time who are deemed difficult or unresponsive to even the most effective adrenal fatigue protocol in their practice. Dr. Wilson will explain how to turn these difficult cases around and give you the tools to manage these seemingly 'impossible' cases.

### Adrenal and Kidney Detoxification (30 mins)

Were you aware that the adrenal glands have their own P-450 enzyme detoxification system? Dr. Wilson will show you how to effectively detoxify your patient's adrenal glands and kidneys. Some practitioners focus on the liver and bowel when it comes to detox, forgetting that the adrenals & kidneys are very important organs to detoxify, considering their vital importance to good health.

### The Upside and Downside of Corticosteroids in Practice (30 mins)

- What are the benefits and disadvantages of corticosteroids in your practice?
- When is it appropriate to use hydrocortisone in your practice?
- How can you use hydrocortisone most effectively alongside the Adrenal Fatigue Program?
- How do you wean steroid-dependent patients off their medications with minimal aggravations?

### Adrenal Fatigue Case Studies - Open Workshop - Q & A (75 - 90min)

- Your opportunity to discuss cases or any aspect of adrenal fatigue, immunity, gut health, metabolic syndrome, insomnia, thyroid disorders and the many other faces of stress which will present themselves in your clinic.
- Do you see difficult patients at times who are unresponsive to treatment, and would you like to have some tools to be able to more effectively treat such cases in your clinic?
- Are you aware that the adrenals come equipped with their own detoxification system, and that these small hard-working glands can become highly toxic yet often remain untreated?
- In certain cases of severe burn-out, hydrocortisone can be used most effectively to facilitate a quicker outcome for your patient. Would you like to learn the correct protocol?
- Do you wish to discuss a difficult case or ask about any aspect of adrenal fatigue, stress, immunity or have any other question you wish to ask Dr. Wilson? **Now is your chance.**

- 
- Dr. Wilson was invited to lecture at the Royal Society of Medicine in London in 2007 and 2010 where he received wide acclaim for his pioneering work on stress and adrenal function. Dr. Wilson is an acknowledged expert in alterative medicine, particularly in the area of stress, immunity and adrenal function, and is a highly respected and sought after lecturer in the medical and public communities throughout the worlds.
  - Dr. Wilson is one of a few who have earned 3 doctorates and 2 master's degrees, all from colleges, and all in different health-related disciplines. He received his Ph.D in Human Nutrition from the University of Arizona, with research in Cellular Immunology. His doctorates in Chiropractic and Naturopathic Medicine are from the Canadian Memorial Chiropractic College and the Ontario College of Naturopathic Medicine (CCNM).
  - Dr. Wilson has long been on the forefront of natural medicine after more than 30 years of practice and research, and is one of the 'founding fathers' of CCNM, now the largest Naturopathic College in the world. With a researcher's grasp of science and a clinical understanding of its human impact, Dr. Wilson has helped many thousands of physicians and patients alike to understand the physiology behind and treatment of various health conditions.

**Don't miss this rare opportunity to gain valuable insights into Dr Wilson's 30+ years of clinical practice and research.**

**Practitioners have requested we provide a platform for an interactive “workshop style” Q & A session with Dr James L. Wilson**

“You asked us to bring him back”

“You asked us to organise an Interactive Workshop”

“You asked us for open access to Dr Wilson’s 30+ years of clinical knowledge via a Q & A open floor session”

“You asked us for simple tools to take away to implement into your clinic the very next day”

“So we have”
